

RIO Corporate Contributor License Agreement ("Agreement"), v1.0

Project: Robot I/O ("RIO") — <https://robot-i-o.github.io> | **Steward:** Lavoro AI, Inc. ("Lavoro")

Thank you for your interest in contributing to RIO. In order to clarify the intellectual property license granted with Contributions from any corporation or other legal entity, Lavoro, as the primary steward of the RIO project, must have a Contributor License Agreement ("CLA") on file that has been signed by each contributing Corporation, indicating agreement to the license terms below.

This version of the Agreement allows an entity (the "Corporation") to submit Contributions to the RIO project, to authorize Contributions submitted by its designated employees to the RIO project, and to grant copyright and patent licenses thereto. This license is for the protection of the Corporation as a Contributor as well as the protection of Lavoro, the RIO project, and its users; it does not change the Corporation's rights to use its own Contributions for any other purpose.

The Corporation accepts and agrees to the following terms and conditions for its present and future Contributions submitted to the RIO project. Except for the license granted herein to Lavoro and recipients of software distributed by the RIO project, the Corporation reserves all right, title, and interest in and to its Contributions.

1. Definitions

"Corporation" (or **"You"** / **"Your"**) shall mean the legal entity identified on the signature page that is entering into this Agreement with Lavoro. For legal entities, the entity making a Contribution and all other entities that control, are controlled by, or are under common control with that entity are considered to be a single Contributor. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"Contribution" shall mean any original work of authorship, including any modifications or additions to an existing work, that is intentionally submitted by the Corporation to the RIO project for inclusion in, or documentation of, the RIO project (the "Work"). For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the RIO project or its representatives, including but not limited to communication on electronic mailing lists, source code control systems (e.g., pull requests on GitHub), and issue tracking systems that are managed by, or on behalf of, the RIO project for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the Corporation as "Not a Contribution."

2. Grant of Copyright License

Subject to the terms and conditions of this Agreement, the Corporation hereby grants to Lavoro and to recipients of software distributed by the RIO project a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare derivative works of, publicly display, publicly perform, sublicense, and distribute the Corporation's Contributions and such derivative works.

3. Grant of Patent License

Subject to the terms and conditions of this Agreement, the Corporation hereby grants to Lavoro and to recipients of software distributed by the RIO project a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by the Corporation that are necessarily infringed by the Corporation's Contribution(s) alone or by combination of the

Corporation's Contribution(s) with the Work to which such Contribution(s) was submitted. If any entity institutes patent litigation against the Corporation or any other entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Corporation's Contribution, or the Work to which the Corporation has contributed, constitutes direct or contributory patent infringement, then any patent licenses granted to that entity under this Agreement for that Contribution or Work shall terminate as of the date such litigation is filed.

4. Authority to Grant

The Corporation represents that it is legally entitled to grant the above licenses. The Corporation represents further that each employee or agent of the Corporation designated on Schedule A below (or in a subsequent written modification to that Schedule) is authorized to submit Contributions on behalf of the Corporation.

5. Original Creation

The Corporation represents that each of its Contributions is its original creation (see Section 7 for submissions on behalf of others). The Corporation represents that its Contribution submissions include complete details of any third-party license or other restriction (including, but not limited to, related patents, trademarks, and license agreements) of which it is aware and which are associated with any part of its Contributions.

6. No Warranty / No Support Obligation

The Corporation is not expected to provide support for its Contributions, except to the extent the Corporation desires to provide support. The Corporation may provide support for free, for a fee, or not at all. Unless required by applicable law or agreed to in writing, the Corporation provides its Contributions on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE.

7. Third-Party Works

Should the Corporation wish to submit work that is not its original creation, the Corporation may submit it to the RIO project separately from any Contribution, identifying the complete details of its source and of any license or other restriction (including, but not limited to, related patents, trademarks, and license agreements) of which the Corporation is aware, and conspicuously marking the work as "Submitted on behalf of a third party: [named here]".

8. Notification of Changed Circumstances

It is the Corporation's responsibility to notify Lavoro when any change is required to the list of designated employees authorized to submit Contributions on behalf of the Corporation (Schedule A), or to the Corporation's Point of Contact with Lavoro. The Corporation further agrees to notify Lavoro of any facts or circumstances of which it becomes aware that would make the representations in this Agreement inaccurate in any respect.

9. Outbound License

In consideration of the licenses granted above, Lavoro agrees that Contributions will be distributed by the RIO project only under the terms of the open-source license(s) then applicable to the RIO project (currently Apache-2.0), or under other licensing terms approved by the RIO project's governance, provided such terms are consistent with an open-source license approved by the Open Source Initiative.

10. Miscellaneous

This Agreement is governed by the laws of the State of Delaware, USA, without regard to its conflict-of-laws provisions. This Agreement sets out the entire agreement between the Corporation and Lavoro regarding the

Corporation's Contributions to the RIO project and supersedes all prior agreements and understandings on that subject. If any provision of this Agreement is found void or unenforceable, the remaining provisions shall remain in full force and effect.

Signature

By signing below, the signatory agrees to the terms of this Agreement on behalf of the party identified.
